Deliverability

Why Not WhatsApp?

- Gambling/casino content violates Meta's Commerce Policy
- Templates will be rejected during Meta review
- Business account can be permanently banned
- 24-hour messaging window limits engagement
- Per-conversation fees add up with VIP volumes

Why Telegram Works

- No content restrictions - gambling, promotions, anything goes
- Completely free Bot API - zero per-message costs
- No messaging windows - reach players anytime
- Rich media support - images, videos, documents, buttons
- Instant delivery with push notifications
- End-to-end encryption available for sensitive comms

Platform Features

01 VIP Player Onboarding

- QR codes at tables, lounges, and reception for instant opt-in
- Bot collects player name and membership/loyalty number
- Auto-tagging by VIP tier (Silver, Gold, Platinum, Black)
- Welcome message with exclusive perks and upcoming events

02 Targeted Campaigns

- Broadcast to all VIPs or filter by tier, spend level, or activity
- Tournament invitations, exclusive event announcements
- Personalized offers (deposit bonuses, cashback, free spins)
- Win-back campaigns for inactive high-value players
- Scheduled sends for optimal engagement times

03 VIP Concierge / Host Chat

- Players message their personal host directly through the bot
- Host sees messages in FlowDesk inbox, replies personally
- Bot handles FAQs (hours, dress code, directions) automatically
- Complex requests seamlessly routed to human staff
- Full conversation history for every player

04 Loyalty & Rewards Tracking

- Points/stamps system adapted for casino play
- Automated tier upgrade notifications
- Birthday and anniversary reward messages
- Redemption notifications and balance updates

05 Smart Automations

- Auto-reply to common questions (hours, location, events)
- Keyword triggers (e.g. 'poker' sends tournament schedule)
- New player welcome flows with onboarding sequence
- Post-visit follow-up messages

How It Works

- 1

Create Bot
Set up a Telegram bot via BotFather (2 minutes). Choose your casino's name and branding.
- 2

Connect to FlowDesk
Paste the bot token into FlowDesk. We handle webhook setup, message routing, and storage.
- 3

Import VIP List
Upload existing player contacts via CSV or let them self-register through the bot.
- 4

Configure Tiers
Set up VIP levels with custom tags, permissions, and campaign targeting rules.
- 5

Launch Campaigns
Start engaging players with targeted messages, events, and exclusive offers.

Your Dashboard

- Inbox**
Real-time player conversations with host assignment

Campaigns
Create, schedule, and track broadcast performance

Analytics
Delivery rates, engagement metrics, player activity insights

Team
Multiple staff members with workspace access controls
- Contacts**
Full player database with tier tags, notes, and history

Automations
Build reply flows, keyword triggers, and welcome sequences

Loyalty
Points tracking, tier management, reward notifications
